

To whom it may concern,

I am writing to you not as a media player but as just an American citizen concerned about the actions by Sinclair Broadcast Group Inc. I am disgusted that they would even call themselves a news organization. I could not believe how low their corporation would resort to in protecting their monetary interest in keeping Bush in office. He does not represent the people, but only his corporate cronies. This movie is not only deplorable but the airing of it on TV is illegal. I have sent emails to several of their affiliates to stop this smear tactics by them. I will also urge others to do the same. I have emailed all sponserers of SBG Inc. to urge them not to subsidize their partisan attacks. SBG Inc. is violating the people's trust. The media is required to show facts and be non partisan, not display subjective rhetoric to bias the American public. This is wrong and should be stopped immediately. I hope that the FCC can investigate this promptly and put an end to this divisive and vicious attacks by Sinclair Broadcast Group Inc. The media should report the news not put themselves into the news.

Thank you,  
Teresa Sargent
